				2004	1968	1932
				1995	1959	1923
				1986	1950	1914

Note: Because the Lunar Calendar usually begins and ends in early February, (based on the Japanese Lunar Calendar) persons born prior to the Lunar New Year are considered to have been born in the previous year. The 2021 Lunar Calendar is from February 4, 2021 to February 3, 2022.

Example: A person born on January 7, 1964 would be born in 1963 according to the Lunar Calendar and come under the star for the earlier year.
